NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

1 REPORTING ENTITY

These financial statements are for The Waikato Community Trust Inc ("the Trust"). The Trust is a not for profit charitable trust incorporated under the Charitable Trusts Act 1957, based in the Waikato and domiciled in New Zealand. Its principal activities are the investment and maintenance of the Trust capital and the provision of grants to community groups in the greater Waikato area.

The Trust Bank Waikato Community Trust was established under the Trustee Banks Restructuring Act 1988 and subsequently the Community Trusts Act 1999. The Trust Bank Waikato Community Trust Deed was executed on 30 May 1988 and the Trust was incorporated on 5 August 1988, with Trust capital of \$21,316,622. The name of the Trust was changed to The Waikato Community Trust Incorporated in December 1997. The Trust operates as Trust Waikato.

The financial statements were authorised for issue by the Trustees on 19 July 2018. The Trustees or any other body have the power to amend the financial statements after issue.

2 BASIS OF PREPARATION

2.1 Statement of Compliance

The financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (NZ GAAP) and the Tier 2 Public Benefit Entities International Public Sector Accounting Standards (PBE IPSAS).

The Trust is eligible to report using Tier 2 PBE Standards as it is not publicly accountable and not large. An entity is considered to be large if it has expenses over \$30 million over two consecutive years.

The Trust has elected to take all concessions available to them under Tier 2 PBE Standards although has chosen to disclose financial instruments as required under Tier 1. The Trust has also chosen to fully comply with PBE IPSAS 2 Cashflow Statements.

2.2 Basis of Measurement

The financial statements have been prepared on the basis of historical cost, except for the revaluation of the following assets, which are stated at their fair value:

- Financial assets at fair value through the profit or loss component of the Statement of Comprehensive Revenue & Expenses
- · Derivative financial instruments
- · Available for sale financial assets
- Land

The methods used to measure fair values are discussed further in Note 3.9.

The financial statements have been prepared on a going concern basis, and the accounting policies have been applied consistently throughout the period.

2.3 Functional and Presentation Currency

The financial statements are presented in New Zealand dollars, which is the Trust's functional and presentation currency, rounded to the nearest thousand dollars.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

2.4 Critical Accounting Estimates and Judgements

The preparation of financial statements in conformity with PBE IPSAS requires management to make certain critical accounting estimates, judgements and assumptions that affect the application of policies and the reported amount of assets, liabilities, income and expenses. The estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of the judgements. Actual results may differ from these estimates.

The estimates and judgements are reviewed by management each year. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. Information about judgements made by management in applying accounting policies that have a significant effect on the amount recognised in the financial statements relate to Grants Payable (Note 3.6.2) and Contingent Liabilities: Grants and Sponsorships (Note 7).

2.5 Changes in Accounting Policy and Disclosures

There have been no changes in accounting policies since 31 March 2017.

3 SPECIFIC ACCOUNTING POLICIES

The following specific accounting policies which materially affect the measurement of comprehensive revenue & expenses and the financial position have been applied.

3.1 Revenue Recognition

3.1.1 Revenue from Exchange Transactions

Revenue from exchange transactions is revenue arising from transactions in which the entity receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange. The Trust's revenue from exchange transactions includes investment income, rental income and income from other sundry exchange transactions.

3.1.2 Investment Income

Investment income is presented in the Statement of Comprehensive Revenue & Expenses and comprises interest and dividend income on funds invested, gains and losses on the disposal of investments, changes in the fair value of investments, foreign currency gains and losses, and gains and losses on hedging instruments. Interest income is recognised as it accrues, using the effective interest method. Dividend income is recognised on the date that the Trust's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

3.1.3 Rental Income

Rental income (net of any incentives) is recognised on a straight line basis over the lease term.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

3.1.4 Revenue from Non-Exchange Transactions

Revenue from non-exchange transactions are transactions that are not exchange transactions. Exchange transactions are described in note 3.1.1. The Trust's non-exchange transactions include Grants received.

Assets and revenue arising from transfer transactions are recognised in the period in which the transfer arrangement becomes binding, except for some services-in-kind. The entity recognises only those services-in-kind that are received as part of an organised programme and for which it can determine a fair value by reference to market rates. Other services in-kind are not recognised.

Where a transfer is subject to conditions that, if unfulfilled, require the return of the transferred resources, the entity recognises a liability until the condition is fulfilled.

Assets and revenue recognised as a consequence of a transfer are measured at the fair value of the assets recognised as at the date of recognition. Monetary assets are measured at their nominal value unless the time value of money is material, in which case present value is used, calculated using a discount rate that reflects the risk inherent in holding the asset. Non-monetary assets are measured at their fair value, which is determined by reference to observable market values or by independent appraisal by a member of the valuation profession. Receivables are recognised when a binding transfer arrangement is in place, but cash or other assets have not been received.

3.1.5 Major Classes of Bequests, Gifts, Grants and Goods In-kind Received

Transfers are received in the form of gifts, grants and goods in kind. Gifts and grants are received primarily from private benefactors. The entity recognises these assets when control passes to them, usually on receipt of the resources, either cash or plant and equipment.

3.2 Investment Expenses

Investment expenses are presented in the Statement of Comprehensive Revenue & Expenses and comprise transaction costs, fund management fees and investment advisory services.

3.3 Lease Expenses

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. Payments under operating leases are recognised in the Statement of Comprehensive Revenue & Expenses on a straight line basis over the term of the lease.

3.4 Grants

Grants are included in the Statement of Comprehensive Revenue & Expenses when the grant has been approved by the Trustees, the recipient has been notified and when all significant conditions attached to the grant have been met.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

3.5 Trust Funds and Reserves

3.5.1 Base Capital Value

Following the sale of the Trust shares in Trust Bank New Zealand Limited in April 1996, the Trustees agreed that the value of the Trust at that time should be maintained for the benefit of current and future generations living in the Waikato region. For this purpose, the Trustees agreed that \$169,800,000 would be considered as the initial capital of the Trust and adjusted each year to reflect changes in inflation and regional population, as deemed appropriate by the Trustees.

The Base Capital Value is the initial capital adjusted for inflation and regional population growth on an annual basis. See Note 5 for the current value of the Trust's Base Capital Value.

3.5.2 Investment Fluctuation Reserve

The Trustees have adopted an investment strategy with a targeted long term annual rate of return of 5.0% (2017: 6.2%) of the Trust portfolio value. Recognising that actual returns are likely to fluctuate from year to year, the Trust retains the variation from the target in an Investment Fluctuation Reserve, up to a maximum of 25% of the Base Capital Value, so that in years when investment returns are less than the target, sufficient funds are available to meet expenditure and make grants. If the Trust fund falls below the value that needs to be maintained for the benefit of current and future generations the levels of expenditure and grants are reviewed by the Trust.

3.5.3 Grants Reserve

The current grant policy is to distribute annually as grants 4% (2017: 4%) of Base Capital Value, which is the value of the Trust fund that should be maintained for the benefit of current and future generations. The Trustees recognise that for a number of reasons this might not always be achievable and that there will be inevitable fluctuations between the grants distributed and the actual target. The surplus after transfers to the Base Capital Reserve and the Investment Fluctuation Reserve is held in the Grants Reserve. Funds in the Grants Reserve may be used to donate to extraordinary projects, which are in line with the Trust's priorities.

3.5.4 Land Revaluation Reserve

The Land Revaluation Reserve is used to record increases and decreases on the revaluation of land.

3.6 Financial Liabilities

3.6.1 Accounts Payable and Accruals

Accounts payable and accruals are recorded at cost. They are non interest bearing and are normally settled on 30-day terms. Therefore the carrying value of accounts payable and accruals approximates their fair value.

3.6.2 Grants Payable

In the process of applying the Trust's accounting policies, management have made judgements regarding whether or not discretionary grants are payable at year end or if discretionary grants are contingent liabilities at year end. Grants payable are discretionary grants where there are no significant conditions attached or where the significant conditions attached to the grants have been met at balance date. Grants payable are recorded at notional value.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

3.6.3 Employee Entitlements

Provision is made for wages, salaries and annual leave when it is probable that settlement will be required and they are capable of being measured reliably. Provisions in respect of employee entitlements expected to be settled within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled. Provisions made in respect of employee entitlements not expected to be settled within 12 months are measured at the present value of the estimated cash outflows to be made in respect of services provided up to the reporting date.

3.6.4 Derivative Financial Instruments

The base currency of the international investment portfolio is New Zealand dollars. Where possible, the Trust uses hedged pooled funds to hedge currency exposures back to the New Zealand dollar. Where no suitable hedged pool fund is available, the Trust uses forward exchange contracts managed by the BNZ to reduce currency exposure to foreign currency denominated investments. The Trust may choose on occasion to increase its currency exposure to a maximum of 50% to seek additional return. See Note 11.2.2.

Derivatives that do not qualify for hedge accounting and that are accounted for as fair value through the profit or loss component of comprehensive income are recognised initially at fair value. Subsequent to initial recognition, derivative financial instruments are stated at fair value. Changes in the fair value are recognised immediately in the Statement of Comprehensive Revenue & Expenses within Net Increase/(Decrease) in Derivative Financial Instruments.

Further details of the fair value of derivative financial instruments are disclosed in Note 3.9.3.

3.6.5 Embedded derivatives

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives only when their risks and characteristics are not closely related to those of host contracts and the host contracts are not measured at fair value with changes in fair value recognised in the profit or loss component of the Statement of Comprehensive Revenue & Expenses.

Trust Waikato does not apply hedge accounting.

3.7 Cash and Cash Equivalents

Cash and cash equivalents comprise cash at banks and on hand. The carrying value of cash at banks and on hand approximates their fair value.

3.8 Financial Assets

Financial assets are classified into the following specified categories: loans and receivables, financial assets at fair value through the profit or loss component of the Statement of Comprehensive Revenue & Expenses, held to maturity investments and available for sale financial assets. The classification depends on the nature and purpose of the financial assets, is determined at the time of initial recognition and is reviewed regularly.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

3.8.1 Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except those with maturities greater than 12 months after the balance date. These are classified as non-current assets. The Trust loans and receivables comprise Accounts Receivable.

Loans and receivables are initially recognised at fair value plus transaction costs. After initial recognition, loans and receivables are carried at amortised cost using the effective interest method less impairment.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or where appropriate, a shorter period, to the net carrying amount of the financial asset.

When an Account Receivable is uncollectible, it is written off against an allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in the profit or loss component of the Statement of Comprehensive Revenue & Expenses. Thus the carrying value of accounts receivable approximates their fair values.

The Trust assesses at each balance sheet date whether there is objective evidence that a loan or receivable is impaired.

3.8.2 Financial Assets at Fair Value Through The Profit or Loss Component of the Statement of Comprehensive Revenue & Expenses

The Trust classifies its investments as financial assets at fair value through the profit or loss component of the Statement of Comprehensive Revenue & Expenses. These financial assets are designated by management at fair value through the profit or loss component of the Statement of Comprehensive Revenue & Expenses at inception. Subsequent to initial recognition, all financial assets at fair value through the profit or loss component of the Statement of Comprehensive Revenue & Expenses are measured at fair value.

Financial assets designated at fair value through the profit or loss component of the Statement of Comprehensive Revenue & Expenses at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Trust documented investment strategy. Information is provided to management on that basis.

3.8.3 Derivative Financial Instruments at Fair Value Through the Profit or Loss Component of the Statement of Comprehensive Revenue & Expenses See Note 3.6.4.

3.8.4 Available for Sale Financial Assets

Available for sale financial assets are non-derivatives that are either designated in this category or not classified in any other categories.

The investment in Te Kete Putea Limited Partnership (TKPLP) is classified as an available for sale financial asset. The investment represents the Trust share of an integrated grants and financial management system, owned collectively by 10 Community Trusts. TKPLP is stated at fair value and has been fully impaired as at 31 March 2018, as the Trust retired from TKPLP, effective 1 April 2018.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

3.9 Determination of Fair Values

Some of the Trust's accounting policies and disclosures require the determination of fair value for financial assets, financial liabilities and land. Fair values have been determined for measurement and/or disclosure purposes based on the following methods.

3.9.1 Loans and Receivables

Loans and receivables are initially stated at fair value plus transaction costs. The fair value of long term receivables or loans that are interest free or have interest rates below market values is estimated using the present value of all future cash flow receipts discounted using the prevailing market rate of interest for similar instruments with a similar credit rating.

3.9.2 Financial Assets at Fair Value Through the Profit or Loss Component of the Statement of Comprehensive Revenue & Expenses

The fair value of financial assets is classified by reference to the fair value hierarchy within *PBE IPSAS* 30 Financial Instruments: Disclosures

- Level 1: quoted prices (unadjusted) in active markets for identical assets.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset, either directly (as prices) or indirectly (derived from prices).
- Level 3: inputs for the asset that are not based on observable market data (unobservable data).

The Trust financial assets are classified as follows:

Level 1: Australasian Equities, New Zealand Fixed Interest and Cash

The Trust financial assets classified as Level 1 include its investments in some Australasian equities, New Zealand fixed interest and cash. These financial assets are traded in active markets and their fair value is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Trust is the current bid price at close of business on balance date.

Level 2: Australasian Equities, Global Equities and Global Fixed Interest

The Trust investments in some Australasian equities, global equities and global fixed interest are held through units or shares in pooled funds. The units or shares are not traded on an active market but their values are derived from the quoted market value of the underlying equity or fixed interest securities. Therefore these investments are classified as Level 2.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

Level 3: Infrastructure, Private Equity, Global Credit and Unlisted Property

The Trust classifies its investments in infrastructure, private equity, global credit and unlisted property as Level 3 financial assets. These investments are not traded in an active market and their fair value is determined by using valuation techniques in which one or more of the significant inputs is not based on observable market data.

The fair value of infrastructure investments is determined by an independent valuer using the discounted cash flow method, which involves projecting the future cash flows generated by an investment or business and discounting those cash flows at an appropriate rate of return.

The fair value of investments in private equity is determined internally by the fund manager and general partner, in accordance with NZ GAAP, and using valuation techniques including the discounted cash flow method and earnings multiples. The valuation relies on financial data of investee companies and estimates by management.

The fair value of the investment in global credit is based on the net asset value adjusted for transaction costs. Listed securities are valued using the last available market close price on the relevant exchange and other assets are valued at their recoverable amount. Valuations of recoverable amounts include assumptions made by the valuer. Liabilities are valued at cost.

The fair value of unlisted property is based on external independent market valuation for investment properties. This valuation is dependent on management estimates of capitalisation and discount rates, inflows from rental income and maintenance requirements. Independent external valuations of projects under construction or refurbishment are also undertaken.

3.9.3 Derivative Financial Instruments at Fair Value Through the Profit or Loss Component of the Statement of Comprehensive Revenue & Expenses

The Trust classifies forward foreign exchange contracts used to reduce exposure to fluctuations in foreign currency denominated assets as derivative financial instruments. As these are not traded in an active market, but the valuation technique is based on observable market data, the instruments are included in Level 2 of the fair value hierarchy within PBE IPSAS 30 Financial Instruments: Disclosures.

The fair value of forward foreign exchange contracts is determined by the mark to market value at each balance date.

3.9.4 Available for Sale Financial Assets

The fair value of TKPLP is determined using an appropriate valuation technique. As the valuation is not based on observable market data, the Trust classifies TKPLP as Level 3 within the fair value hierarchy of PBE IPSAS 30 Financial Instruments: Disclosures.

3.9.5 Impairment of Financial Assets

All financial assets are reviewed for impairment at the end of reporting periods and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest level for which there are separately identifiable cash flows (cash generating units). The amount of impairment loss needs to be recognised in the Statement of Comprehensive Revenue & Expenses.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

3.9.6 Land

See Note 12.3.

3.10 Property, Plant and Equipment

Land is measured at fair value at the date of revaluation.

Valuations shall be made with sufficient regularity to ensure that the carrying amount does not differ materially from fair value, which is assessed and determined on an annual basis. Valuations take account of observable prices in active markets. Where estimates are made, they are made on the basis of appropriate valuation techniques.

Buildings, office equipment, art and taonga, land improvements and vehicles are stated at cost less accumulated depreciation and any impairment losses. The carrying amounts of Property Plant and Equipment (PPE) are reviewed annually to determine whether there is any indication of impairment.

Rental property, leased under an operating lease, is included in PPE as the rental property is held to provide a social service rather than for rental income or capital appreciation or both.

Depreciation is provided on PPE, including freehold buildings but excluding land. Rental property is depreciated over the expected useful life on a basis consistent with similar owned PPE.

Depreciation on buildings, office equipment, land improvements and vehicles is calculated based on the estimated useful life of the asset. The estimated useful life and depreciation method is reviewed at the end of each annual reporting period.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Trust and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Comprehensive Revenue & Expenses during the financial period in which they are incurred.

	Assessment	Depreciation	
Classification of PPE	of Useful Life	Rate	Method
Art and Taonga	99	1%	Straight Line
Buildings	99	1%	Straight Line
Building Furnishings	10	10%	Straight Line
Building Fit out	10	10%	Straight Line
Computer Equipment	3	33%	Straight Line
Furniture	10	10%	Straight Line
Land Improvements	20	5%	Straight Line
Garden Signage and Lighting	10	10%	Straight Line
Office Equipment and Appliances	5	20%	Straight Line
Vehicles	4	25%	Diminishing Value

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

3.11 Impairment of Property, Plant and Equipment

Property, plant and equipment subsequently measured at cost that have a finite useful life are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of the asset's fair value less costs to sell and value in use.

If an asset's carrying amount exceeds its recoverable amount, the asset is regarded as impaired and the carrying amount is written-down to the recoverable amount. The total impairment loss is recognised in the Statement of Comprehensive Revenue & Expenses. The reversal of an impairment loss is recognised in the Statement of Comprehensive Revenue & Expenses.

Value in use for non-cash generating assets

Non-cash generating assets are those assets that are not held with the primary objective of generating a commercial return. The Trust's PPE are non-cash generating assets.

For non-cash generating assets, value in use is determined using an approach based on either a depreciated replacement cost approach, restoration cost approach, or a service units approach. The most appropriate approach used to measure value in use depends on the nature of the impairment and availability of information.

Value in use for cash-generating assets

Cash-generating assets are those assets that are held with the primary objective of generating a commercial return. The Trust has no cash-generating PPE.

3.12 Intangible Assets

3.12.1 Amortisation

Intangible assets are initially recorded at cost. The carrying value of an intangible asset with a finite life is amortised on a straight-line basis over its useful life. Amortisation begins when the asset is available for use and ceases at the date that the asset is derecognised. The amortisation charge for each financial year is recognised in the Statement of Comprehensive Revenue and Expenses.

The useful lives and associated amortisation rates of classes of intangible assets have been estimated as follows:

Website 3 years - 33.33%

3.12.2 Impairment

An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of the asset's fair value and value in use. Value in use is determined using either an amortised replacement cost approach or restoration cost approach. The most appropriate approach used to measure value in use depends on the nature of the asset and availability of information.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

3.13 Cash Flows

Cash flows from operating activities are presented using the direct method.

Definition of terms used in the cash flow statement:

- Cash means cash on deposit with banks net of outstanding bank overdrafts, but does
 not include cash or deposits held by the fund managers. Therefore the Statement of
 Cash Flows does not reflect the cash flows within the fund managers' portfolios.
- Investing activities comprise the purchase and sale of property, plant and equipment.
 Cash flows from the realisation of investments are included in operating activities.
- · Financing activities comprise changes in equity of the Trust.
- Operating activities include all transactions and events that are not investing or financing activities.

3.14 Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of Goods and Services Tax (GST), except for receivables and payables which are recognised inclusive of GST. The net amount of GST recoverable from or payable to Inland Revenue is included as part of receivables or payables. The GST component of cash flows arising from investing and financing activities which is recoverable from or payable to Inland Revenue is classified as operating cash flows.

3.15 Taxation

Income derived by the Trust is exempt income under Section CW52 of the Income Tax Act 2007.

3.16 Translation of Foreign Currency Transactions and Balances

Foreign currency transactions are translated into the functional currency (New Zealand dollars) using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Revenue & Expenses.

11. RISK MANAGEMENT OF FINANCIAL INSTRUMENTS

The Trust objective when managing Trust capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for the community. The Trust Board regularly reviews the Trust funds and the risks associated with the Trust funds.

11.1 Financial Risk Management

The Trust activities expose it to a variety of financial risks which are managed through an ongoing process of identification, measurement and monitoring. The financial risks include market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and equity price risk), credit risk and liquidity risk.

The Trust has policies to manage the risks associated with financial instruments. The Trust is risk averse and seeks to minimise exposure from its treasury activities. The Trust has established investment policies. These policies do not allow the Trust to enter into any transactions that are speculative in nature.

The Trust uses the services of an investment advisor to pursue an investment policy considered appropriate for the Trust. The Trust selects fund managers according to their style and specialist skills.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

11.2 Market Risk

Market risk is the risk that the fair value of future cash flows from financial assets and liabilities will fluctuate due to changes in market variables such as foreign currency exchange rates, interest rates and equity prices. Market risk is managed and minimised by ensuring that all investment activities are undertaken in accordance with established mandate limits and the investment strategies and policies set out by the Trust.

11.2.1 Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair value of financial assets. The Trust holds investments in domestic and global bonds. The Trust investments in global bonds are held in pooled funds. In determining the volatility factor for interest rate risk, the Trust has analysed the average annual absolute movement in the yields of 10 year New Zealand and US Government bonds. US Government bonds are used as a proxy for global bond markets. Based on this, the Trust has adopted a volatility factor for interest rate risk of 0.78% (2017: 0.81%) for Trust cash, domestic bond and global bond portfolios.

The sensitivity rates differ from the previous year because of the volatility in the international currency and financial markets experienced over the past year. The disclosures adopted provide a more accurate measurement for the movement in the future, due to current market volatility.

11.2.2 Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Trust is exposed to currency risk both directly through investments denominated in a foreign currency and also indirectly when investment funds invest in foreign currency securities.

The Trust's usual practice is to hedge close to 100% of its foreign exchange risk by using a separate currency overlay or investing in a hedged pool. The Trust may choose to vary its hedging position when there is strong evidence that the currency appears to be in an extreme position. At such a time the variation will not go below 50% hedging of all foreign exposure. Such forward exchange contracts have the economic effect of converting foreign currency denominated balances into New Zealand Dollars. These forward exchange contracts are not treated as hedges for accounting purposes.

In determining the volatility factor for currency risk the Trust has examined the average absolute divergence between the unhedged and hedged annual returns of the MSCI World Index ex Australia (in NZ Dollar terms) over the past 10 years. Based on this, Trust Waikato has adopted a volatility factor for currency risk of 10% (2017: 10%) for the unhedged portion of the Trust's global investments.

	2018	2017
At balance date the Trust exposure to currency risk was as follows:	NZ\$'000	NZ\$'000
Financial Assets with Currency Exposure	282,839	275,105
Hedged Currency Exposure at End of the Year	(233,016)	(229,224)
Unhedged Currency Exposure at the End of the Year	49,823	45,881

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

Unhedged Currency Exposure:		
USA and Canada	18,953	15,885
United Kingdom and Europe	6,707	5,535
Australia	21,539	22,295
Japan	2,624	2,166
Unhedged Currency Exposure at the End of the Year	49,823	45,881

11.2.3 Price Risk

Price risk is the risk that the fair value of financial assets will increase or decrease as a result of changes in market prices, whether these changes are caused by factors specific to individual assets or factors affecting all financial assets in the market. The Trust is exposed to price risk relating to investments held by the Trust and classified as financial assets at fair value through the profit or loss component of the Statement of Comprehensive Revenue & Expenses, comprising Australasian equities, global equities, unlisted property, infrastructure, private equity and global credit investments.

In determining the volatility factor for price risk the Trust has examined the average market return over the past 10 years for each of the investment classifications. Based on this, Trust Waikato has adopted the following volatility factors for price risk for the Trust investments: Australasian equities 15% (2017: 15%), global equities 19% (2017: 18%), unlisted property 10% (2017: 10%), infrastructure 14% (2017: 11%), private equity 25% (2017: 25%) and global credit 12% (2017: 12%).

The following table summarises the sensitivity of the Trust financial assets and liabilities to interest rate risk, foreign exchange risk and other price risk.

Summary of Sensitivity of Financial Assets and Liabilities to Market Risk

	Volatility Factor	Volatility Impact	Volatility Factor	Volatility Impact
	2018	2018	2017	2017

^{*} Derivative Financial Instruments

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

11.3 Credit Risk Management

Credit risk is the risk that a third party will default on its obligation to the Trust, causing the Trust to incur a loss

The maximum credit exposure for each class of financial instrument is represented by the total carrying amount of cash equivalents, accounts receivable (Note 8), and investments (Note 9).

The Trust arrangements with fund managers limit the amount of credit exposure to any one institution. The Trust has processes in place to review the credit exposure and credit quality of funds prior to the funds being deposited with financial institutions.

Due to the timing of its cash inflows and outflows, the Trust invests surplus cash with registered banks. The Trust policy for term deposits requires that deposits are placed with financial institutions registered under the Reserve Bank of New Zealand Act 1989 that have an investment grade credit rating of AA- or higher from Standard and Poor's.

The Trust manages credit concentration risks through:

- maintaining a diversified and non-correlated basket of investments across traditional and alternative classes:
- · selecting diverse fund managers;
- ensuring compliance with the individual mandate requirements of each fund manager, where applicable.

The Trust investment advisors and management review the portfolio for compliance against each investment mandate on a regular basis and report findings to the Board of Trustees.

11.4 Liquidity Risk Management

Liquidity risk is the risk that the Trust will encounter difficulty raising liquid funds to meet commitments as they fall due. Prudent liquidity risk management implies maintaining sufficient cash and the ability to close out market positions. In meeting its liquidity requirements, the Trust maintains a level of investments that can be converted into cash at short notice.

The Trust financial liabilities comprise accounts payable and accruals, unconditional unpaid grants and derivative financial instruments. At balance date, all accounts payable and grants payable were current and are settled normally within one month of balance date. Derivative Financial Instruments represent forward exchange contracts used to manage foreign currency exposure. Any liability regarding these will be settled normally within two months of balance date.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

11.5 Fair Value of Financial Instruments

The following table analyses Financial Instruments carried at fair value by valuation method. The different levels have been defined in Note 3.9.2.

No investment funds were recategorised between level 1 and level 2 in the period.

- 12.1 There are no restrictions in title relating to property, plant and equipment, or items pledged as security for liabilities. There are no items or property, plant or equipment which are not in current use. The carrying value of rental properties which is including in buildings above has been disclosed in Note 16.
- During the 2017 financial year, the Trust moved to a revaluation model to revalue its land holdings to fair value. Land is valued based on the current market value assessed by an independent registered valuer. The valuation takes account of observable market prices in active markets. Where estimates are used, they will be made on the basis of appropriate valuation techniques. For 2017 a revaluation of \$2,205,334 was recognised in other comprehensive revenue and expenses and accumulated in Trust Funds under the heading of Land Revaluation Reserve. In 2018, the Trust determined that a third party valuation was not required as an independent registered valuer, Curnow Tizard, confirmed that there are no significant changes in land fair values based on market data.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

During the year, the Trust redeveloped the property and grounds at 4 Little London Lane. The existing building was removed and current landscaping was replaced. In the 2017 year, these assets were impaired to nil book value. The building and improvements and some landscaping assets were disposed of in the 2018 year. The gain or loss on disposal has been recognised in the Statement of Comprehensive Revenue and Expenses and included in the Property, Plant and Equipment schedule above.

Website development is capitalised on the basis of the costs incurred to acquire and bring the website into use. Costs that are directly associated with the development of the website are recognised as an intangible asset. Costs associated with maintaining the website are expensed when incurred.

14. TE KETE PUTEA LIMITED PARTNERSHIP

The Trust and ten of the other eleven Community Trusts established under the 1988 Trustee Bank Restructuring Act have combined resources to own and operate an integrated grants and financial management system. The system is owned and operated by a limited partnership named Te Kete Putea Limited Partnership (TKPLP), which was registered on 18 December 2012. The Trust held 872 units in TKPLP.

The investment in TKPLP was initially valued at \$195,000. Subsequent to initial recognition, the investment has been recorded at fair value through the profit or loss component of the Statement of Comprehensive Revenue & Expenses. Fair value is determined using an appropriate valuation technique.

The Trust's investment in TKPLP has been fully impaired as at 31 March 2018, as the Trust retired from TKPLP, effective 1 April 2018.

Longer than 1 Year and Not Longer than 5 Years		1
		4

The Trust leases a photocopier under a non cancellable lease arrangement. The lease term is for four years. The lease expense is charged to the Statement of Comprehensive Revenue & Expenses.

The Trust as Lessor

The Trust has an operating lease which relates to the building owned by the Trust at 87 Boundary Road, which is included in Property, Plant and Equipment in the Statement of Financial Position. The lease term for 87 Boundary Road is one year with no right of renewal. The final expiry date of the lease is 28 September 2018.

The carrying value of the leased asset is \$883,302 (2017: \$887,302), comprising Land: \$680,000 (2017: \$680,000), and Buildings: \$203,174 (2017: \$207,302), the accumulated depreciation is \$136,824 (2017: \$132,696) and the depreciation charge for the year is \$4,127 (2017: \$4,251).

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

17. TRUSTEE MEETINGS AND HONORARIA

The Trust Board held 11 formal meetings during the year. The following table records Trustee attendance at those formal meetings:

Trustee	Meetings Available to Attend	Meeting Attendance	Honorarium
			\$
Nuri, Niwa (Chair)	11	11	25,330
Barriball, Peggy	11	11	13,932
Chew, Alan	11	7	12,665
Christian, Carolyn	10	9	12,665
Feng, Chong (appointed 22 June 2017)	9	8	9,812
Flowers, Lynnette (retired 21 June 2017)	2	1	2,853
Follows, Trevor	11	9	12,665
Gillespie, John (retired 21 June 2017)	2	1	2,853
Kedzlie, Michael (Liam) (appointed 22 June 2017)	9	9	10,793
McLennan, Vicky (appointed 22 June 2017)	9	8	9,812
Noble, Bill	11	9	12,665
Paenga, John	11	10	12,665
Barker, Norman	11	11	12,665
Sporle, Raewyn	11	9	12,665
Viggers, Maxine (retired 21 June 2017)	2	2	2,853
Wilson, Edgar (Deputy Chair)	11	11	15,831
Total Remuneration			182,724

In addition, during the year Trustees participated in committee meetings, Trust consultations with the community sector and a range of professional development opportunities. Trustees were also invited to 82 events and meetings within the community and were able to achieve representation at approximately 35 of those meetings.

18. CONFLICTS OF INTEREST

During the year Trustees and staff were required to declare when they had either a direct or indirect conflict of interest in a matter being considered by the Trust. During the course of the year, 34 such interests were recorded (2017: 39). A register of those interests is available for inspection at the Trust.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

19. RELATED PARTY TRANSACTIONS

Related Party Transactions

Transactions with related party organisations totalled \$2,655,196 (2017: \$293,539) during the year. Interests were declared when these transactions were considered and key management personnel took no part in deliberations relating to organisations in which they had an interest. There was \$Nil payable at balance date (2017: \$Nil).

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

1 REPORTING ENTITY

The Waikato Community Trust Incorporated is a not for profit charitable trust incorporated and domiciled in New Zealand. Its principal activities are the investment and maintenance of the Trust capital and the provision of grants to community groups in the greater Waikato area. The Trust was incorporated on 5 August 1988 with Trust Capital of \$21,316,622.

The Trust operates as Trust Waikato.

2 SUMMARISED FINANCIAL STATEMENTS

These are the summarised financial statements of The Waikato Community Trust Incorporated.

These summarised financial statements are prepared in compliance with PBE IPSAS - 43 'Summary Financial Statements' and have been extracted from the full audited financial statements for the year ended 31 March 2018 which were authorised for issue on 19 July 2018. Summarised financial statements cannot be expected to provide as complete an understanding as provided by the full financial statements, which can be obtained from the office of the Trust or from the Trust website www.trustwaikato.co.nz.

The full financial statements have been subject to audit by KPMG and an unmodified audit report was issued on 19 July 2018. The audit concluded that the full financial statements present fairly in all material respects the trust's financial position as at 31 March 2018 and its financial performance and cashflows for the year ended on that date. These summarised financial statements were authorised by the Trustees for issue on 19 July 2018 and have been examined by KPMG for consistency with the full financial statements.

3 STATEMENT OF COMPLIANCE

The Trust's full financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (NZ GAAP) and the Tier 2 Public Benefit Entities International Public Sector Accounting Standards (PBE IPSAS). Disclosure concessions have been applied.

4 BASIS OF MEASUREMENT

The financial statements have been prepared on the basis of historical cost, except for the revaluation of the following assets, which are stated at their fair value:

- Financial assets at fair value through the profit or loss component of the Statement of Comprehensive Revenue & Expenses
- · Derivative financial instruments
- · Available for sale financial assets
- Land

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

5. TRUSTEE MEETINGS AND HONORARIA

The Trust Board held 11 formal meetings during the year. The following table records Trustee attendance at those formal meetings:

Trustee	Meetings Available to Attend	Meeting Attendance	Honorarium
		7 133011 2211 23	\$
Nuri, Niwa (Chair)	11	11	25,330
Barriball, Peggy	11	11	13,932
Chew, Alan	11	7	12,665
Christian, Carolyn	10	9	12,665
Feng, Chong (appointed 22 June 2017)	9	8	9,812
Flowers, Lynnette (retired 21 June 2017)	2	1	2,853
Follows, Trevor	11	9	12,665
Gillespie, John (retired 21 June 2017)	2	1	2,853
Kedzlie, Michael (Liam) (appointed 22 June 2017)	9	9	10,793
McLennan, Vicky (appointed 22 June 2017)	9	8	9,812
Noble, Bill	11	9	12,665
Paenga, John	11	10	12,665
Barker, Norman	11	11	12,665
Sporle, Raewyn	11	9	12,665
Viggers, Maxine (retired 21 June 2017)	2	2	2,853
Wilson, Edgar (Deputy Chair)	11	11	15,831
Total Remuneration			182,724

In addition, during the year Trustees participated in committee meetings, Trust consultations with the community sector and a range of professional development opportunities. Trustees were also invited to 82 events and meetings within the community and were able to achieve representation at approximately 35 of those meetings.

6. CONFLICTS OF INTEREST

During the year Trustees and staff were required to declare when they had either a direct or indirect conflict of interest in a matter being considered by the Trust. During the course of the year, 34 such interests were recorded (2017: 39). A register of those interests is available for inspection at the Trust.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

7. RELATED PARTY TRANSACTIONS

Related Party Transactions

Transactions with related party organisations totalled \$2,655,196 (2017: \$293,539) during the year. Interests were declared when these transactions were considered and key management personnel took no part in deliberations relating to organisations in which they had an interest. There was \$Nil payable at balance date (2017: \$Nil).
